

Annex II to the Final Report of the study
for the Update of Regulation (EC) 1418/2007

Country rules in the format of the Annex to Regulation (EC)
1418/2007

The information and views set out in this report are those of the authors and do not necessarily reflect the official opinion of the Commission. The Commission does not guarantee the accuracy of the data included in this study. Neither the Commission nor any person acting on the Commission's behalf may be held responsible for the use which may be made of the information contained therein.

This Annex provides, in the format of the Annex to Commission Regulation 1418/2007, the rules concerning the import of non-hazardous waste for each country that provided this information in response to the questionnaire sent for the study. Please note that this Annex only presents updates to the information provided in the current version of the Annex to Regulation 1418/2007: no listing is provided for countries that indicated there were no changes to their rules indicated in the current version of the Regulation; however, Annex II is completed where the response contains a legal reference for 'other control procedures' (column d) – these legal references are provided in footnotes. For further information on country responses, please see Annex I to this report.

As per the current Annex to Regulation (EC) 1418/2007, the headings of the columns for each country listing refer to the following:

- (a) prohibition;
- (b) prior written notification and consent as described in Article 35 of Regulation (EC) No 1013/2006;
- (c) no control in the country of destination;
- (d) other control procedures will be followed in the country of destination under applicable national law. As for the waste included in column (c), the general information requirements laid down in Article 18 of Regulation (EC) No 1013/2006 apply mutatis mutandis unless a waste is also included in column (b).

In addition, where two codes are separated by a hyphen, this is to be understood as covering the two codes and all codes in between them.

Albania

(a)	(b)	(c)	(d)
All waste listed in annex III and mixtures of wastes listed in annex IIIa of Regulation (EC) No 1013/2006 except from B1010: — Iron and steel scrap with a high purity (98%) — Aluminium scrap with a high purity (95%)		From B1010 ¹ — Iron and steel scrap with a high purity (98%) — Aluminium scrap with a high purity (95%)	

Anguilla

(a)	(b)	(c)	(d)
	All waste listed in annex III and mixtures of wastes listed in annex IIIa of Regulation (EC) No 1013/2006		

Armenia

(a)	(b)	(c)	(d)

²⁸ Paraguay has indicated that information about the characteristics of the waste to be imported are requested. The company in charge of recycling needs to be authorised to do so and comply with the Law on Environmental Impact 294/93.

²⁹ See:

- Decreto Legislativo N° 1278, Ley de la Gestión Integral de Residuos Sólidos. Effective as of 22/12/2017
- Decreto Supremo N° 014-2017-MINAM, Reglamento de la Ley de la Gestión Integral de Residuos Sólidos
- Procedimiento N° 3 – Autorización de importación de residuos sólidos no peligrosos, del Texto Único de Procedimientos Administrativos del Ministerio del Ambiente, aprobado mediante el Decreto Supremo N° 007-2010-MINAM; y modificados por el Decreto Supremo N° 007-2018-MINAM y la Resolución Ministerial N°024-2019-MINAM

³⁰ According to the information received: "Importation of recyclable materials containing hazardous substances shall be allowed only upon obtaining prior written approval from EMB-DENR [Environmental Management Bureau, Department of Environment and Natural Resources]. Importers are required to register with EMB-DENR and each shipment shall be covered by an Importation Clearance thirty (30) working days prior to the actual import."

³¹ All materials containing radioactive materials such as Cesium (Cs), Cobalt (Co), Americium (Am), Strontium (Sr), lanthanide, actinide and others, as determined by the Philippine Nuclear Research Institute, are prohibited.

(a)	(b)	(c)	(d) ³⁰
B2030 – B2040			
From GG040 – Coal-fired power plant fly-ash containing Annex I substances in concentrations sufficient to exhibit Annex III characteristics (note the related entry on Basel Convention) shall not be allowed for importation. Pre-treatment of the fly ash shall conform with the requirement for clinker or cement production and should be undertaken at the country of export.			GG040 – All other wastes
